

## Language Sampling: The School SLP's Most Flexible & Inexpensive Tool

Saturday, October 24, 2020 10:00 a.m. - 12:00 p.m.

0.2 ASHA CEUs (Intermediate Level, Professional Area) or 2 PDCH

**OSSPEAC Members - \$30.00 Non-Members - \$45.00**

Language sampling and analysis is not just for the Communication Sciences and Disorders graduate assistant! Rather, it is an effective, authentic, and reliable method for establishing baseline performance and periodically evaluating progress for a variety of speech and language disorders. Plan to refresh your skills in language sampling and analysis, and learn how these basic principles can be effectively applied in the school practice setting. Save time while gaining valuable, authentic baseline and progress data on student performance!

### MEET OUR PRESENTER:

**Teresa Farnham M.A. CCC-SLP** has been practicing speech-language pathology for more than 40 years in a variety of settings, including 20+ years in schools. She is currently in private practice with Clarity for Communication LLC. She has presented on language sampling as an assessment and progress monitoring strategy in Ohio and for [speechpathology.com](http://speechpathology.com). Terri has presented across the United States on professional issues, speech sound disorders, language and literacy, and augmentative and alternative communication. She was the 2018 recipient of the Patricia C. Lindamood Clinical Leadership Award from OSSPEAC, and has served as OSSPEAC President, Conference Chair, and Governmental Affairs Coalition representative.

Mrs. Farnham has no relevant financial or non-financial relationship to disclose.

### Learner Outcomes:

As a result of this course, participants will be able to:

- 1) identify at least 3 speech or language characteristics or disorders for which language sampling may provide important baseline or assessment information.
- 2) describe research-based strategies for analysis of a language sample.

### Tentative Agenda

- 10:00 - 10:05 Introduction to Language Sample Analysis (LSA)
- 10:05 - 10:10 Targeted functions of communication and communication disorders for which use of LSA may be helpful
- 10:10 - 10:25 Research-based strategies for language sample collection
- 10:25 - 10:40 Video model - conversational language sample demonstration and practice
- 10:40 - 10:55 Video model - story re-tell language sample demonstration and practice
- 10:55 - 11:00 Age factors in language sampling
- 11:00 - 11:20 Metrics and tools for language sampling
- 11:20 - 11:40 Using LSA as a baseline for writing goals and monitoring progress
- 11:40 - 11:55 Progress monitoring strategies for a variety of speech and language disorders using LSA
- 11:55 - 12:00 Questions

**The Ohio School SLP Ed. Audiology Coalition** is approved by the Continuing Educational Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. **See course information for number of ASHA CEUs, instructional level and content area.** ASHA CE provider approval does not imply endorsement of course content, specific products or clinical procedures.
