

**Ohio Speech & Hearing
Legislative Activities Report
September 2020**

On the federal level, HHS again announced new timelines for application and distribution of the federal CARES Act Provider Relief Fund. It extended the application deadline for the Medicaid portal until September 13, 2020. Providers that did not submit comprehensive cost information, including their Medicaid, commercial insurance, and other patient care revenue with CMS through the designated portal to receive the balance of their 2 percent payment of General Distribution funds were able to do so until that date. Many providers have already received their allocation; if you have applied and have not yet received funding, it is important to follow up with HHS.

Ohio has recently passed funding from the federal CARES act through to local governments. Those efforts included legislation that appropriated \$350 million, and a Controlling Board approval that added another \$175 million. There is another \$650 million pass through pending in legislation that has passed the Senate but is awaiting action in the House. Non-profit organizations may seek to partner with local governments for allocation of that funding.

On the administrative rules front, Ohio Medicaid recently released its proposed “permanent” telehealth rules. The rules largely mirror the emergency rules that have been in place since March of this year. Some details of the proposed rule include:

- Adds audiologists with their conditional license to the list of eligible telehealth providers
- Asynchronous delivery is allowed via telephone, remote patient monitoring, or through secure patient portal/email. Texting is not included
- Removes fax as a communication medium
- Removes patient and practitioner location restrictions
- Maintains telephone only service codes 99441 and 99442 but removes 99443

- Requires patients to be seen in person at least annually by either the telehealth provider or the provider usually responsible for delivering clinical care, other than an ER provider
- Preserves ability for all telehealth providers to bill consultation E&M codes
- Removes provision from the emergency rule allowing a practitioner site to bill an originating fee through telehealth
- Adds requirements regarding claims submission, clarifying providers must follow ODM billing guidelines when submitting telehealth claims

The rule is up for public hearing on October 1st and will take effect on November 15, 2020. Questions about the rule can be sent to rules@medicaid.ohio.gov GAC may want to consider submitting comments in support of the rule.

Separately, GAC continues to closely follow ODE's process on revisions to the Operating Standards, OAC 3301-51-01 through 3301-51-21. The public comment period on the rule ended July 31, 2020; GAC and several of its members commented on the rules. According to ODE, the public comments have been reviewed by the leads for each rule, members of the Office for Exceptional Children (OEC) leadership team and OEC's legal counsel. The rules now are being reviewed by ODE's Center for Student Supports leadership and the department's chief legal counsel for OEC. The rules will then be moved to the State School Board for consideration in late fall 2020/early winter 2021.

ODE has indicated that it received the majority of comments in four different areas:

- Removal of the section that requires parental consent for changing a student's placement; to date 747 comments have come in on this, mostly from parents and parent advocacy groups;
- Extending the age of DD to match federal language from ages 3-9;
- Preference of previous version of "Whose IDEA is This?"
- Redevelop/update workload calculator for related service providers

GAC's comments focused on the fourth issue, as we felt the rule draft made compliance with the workload calculator less mandatory and less clear.

On the legislative front, HB 606, a proposal granting broad civil immunity during the COVID-19 pandemic, is headed to the Governor's desk after earning final passage in the Senate on September 2nd. The upper chamber voted 22-8 along party lines for the conference committee report on the bill a day after the House did the same (62-30). Prior to passing both chambers, HB 606 cleared the conference committee on a party-line vote, with Rep. Richard Brown (D-Canal

Winchester) and Sen. Cecil Thomas (D-Cincinnati) forming the opposition. The passage comes after months of debate over the summer. In conference committee, the bill's expiration date was extended from Dec. 31, 2020 to Sept. 30, 2021. An emergency clause was also removed. Once signed, HB 606 will provide GAC member employers with immunity from liability for transmission of COVID-19; the immunity also extends to staff, board members and volunteers.

GAC continues to work on revisions to HB 436. Advocates for the bill are working on a variety of drafting changes, including a provision that would add an SLP to the ODE advisory group. This is being done in response to GAC's request and advocacy with the bill sponsor, Rep. Brian Baldrige. The bill is pending in the Senate, and we are hopeful that it might get through the process and to the Governor's desk during lame duck session.

Separately, ASHA has asked GAC for recommendations for legislators to invite to participate in its education sessions this fall on the Audiology/Speech-Language Pathology Interstate Compact (ASLP-IC). GAC recommended three senators: Senators Blessing, Roegner and Gavarone. Senators Blessing and Roegner are co-sponsors of SB 272, which allows Ohio to adopt a physical therapy compact. Senator Gavarone is the sponsor of SB 258, which adopts the psychology compact. Given that these members understand the nature of interstate compacts, it follows that they might be interested in sponsoring the ASLP-IC.

In the House, Speaker Cupp has not yet announced his leadership team. It appears he is trying to build a coalition team that could build support from the more conservative members of the caucus. Most of Speaker Householder's leadership team has not volunteered to step down, leaving Speaker Cupp with an interesting choice.

Ohioans filed 18,719 initial applications for unemployment compensation last week, according to the Department of Job and Family Services. The total represented a slight decline from the prior week when residents filed 18,988 new jobless claims. ODJFS reported Ohioans filed 339,957 continued claims last week, down 436,345 from the state's peak earlier this year. The agency said it has sent more than \$6.2 billion in unemployment compensation payments to more than 795,000 Ohioans over the last 24 weeks. The U.S. Department of Labor reported 881,000 new jobless applications were filed nationwide last week, down from 1.01 million the previous week.

We are monitoring the following legislation for you:

HB115 **REGULATOR RESTRICTION REDUCTION (RIEDEL C, ROEMER B)** To require certain agencies to reduce the number of regulator restrictions and to amend the versions of sections 106.021 and 106.03 of the Revised Code that are
