Ethics is a verb. It's all about what you do and how you do it. Ethical issues span every aspect of our practice and can present dilemmas for practitioners at all levels of experience. This session will address various facets of ethical dilemmas in the school setting, including practical tips to successfully resolve them. Building on feedback from previous ethics presentations and dilemmas addressed by the Ohio licensure board, we have incorporated real-life scenarios into an interactive, engaging, and informative session that allows participants to decide whether an ethical dilemma is present.

LEARNER OUTCOMES:

As a result of this course, participants will be able to:

1. Name/describe ethical issues that school based SLPs and AUDs encounter in the school setting.
2. State ethical requirements adopted by the Ohio Speech and Hearing Professional's Board.
3. Understand how to recognize and appropriately respond to an ethical dilemma.
4. Understand how to implement and follow an ethical decision-making process to effectively resolve an ethical dilemma.
